

GMAS Release 1_30

November 19, 2011

System-to-system (S2S):

- Added support for the new versions of two forms required for NIH applications for Grants.gov via S2S proposal submission as of January 2012:
 - NIH Modular Budget form
 - NIH Subaward Budget Attachment form

Approvals:

- A new module has been added to GMAS allowing all members of the University to electronically sign the Participation Agreement (PA) form. A new URL will allow direct access to the PA form where a signature can be electronically entered and recorded. The current paper-based process for signing and recording the PA form will be replaced by the electronic signature process in Spring 2012. The enhancement in this release is in preparation of the forthcoming business process change.

Requests:

- A bug has been fixed that caused an incorrect error message regarding SNAP questions on NIH continuation requests.

Segment:

- The segment homepage displays all expenses to accounts adhering to the cost sharing model (example: non-sponsored fund with a sponsored activity) in the Cost Sharing component:
 - The cost sharing detail screen shows each account string with cost sharing expenses and budgets rolled up by object code
 - The cost sharing details screen includes a "Download This Page" option for export to Excel.
- The Accounts component bar now displays number of accounts in proposed, active and closed status.

Person:

- A bug has been fixed to allow super users to merge duplicate person records when the record had no job records affiliated with an external organization.

Technical:

- iText upgrade from 2.x to 5.x.
